EENC

European Expert Network on Culture

The European Expert Network on Culture (EENC) is a **network of scholars working on the analysis of culture and cultural heritage policies**. It was set up in 2020, following a Call for Tenders of the European Commission's Directorate General for Education, Youth, Sport and Culture. EENC is coordinated for an initial period of two years, by [Interarts](#) with Dr. Cornelia Dümcke as its Scientific coordinator.

The EENC's mission is to **advise and support the European Commission in the analysis of cultural and cultural heritage policies and reforms**, and to consider their implications at national, regional and European level. This support includes providing access to the most relevant evidence from research, covering the different dimensions of the cultural sector.

The website provides a brief information on EENC mission and tasks, the description of the six **thematic areas** on which it will provide support (Sustainability in Cultural Heritage; Cohesion and Well-being; An ecosystem supporting artists, cultural and creative professionals, and European content; Gender equality; International cultural relations; Culture as a driver for sustainable development), its **publications** and outputs as well as **tools** as sources links to the most important journals, books, studies, news. It also presents the EENC **core group of experts** and its **coordination team**.

The **EENC Website** aims to provide a user-friendly resource, primarily for policy-makers in the wider field of culture. However, researchers, artists, educators, journalists and other actors in the field of culture and in related fields may also find it useful.
