The new version of

BABY SPACE, a choreographed installation for babies by Dalija Acin Thelander from Sweden, will be produced by [The Artground - A Curious Place to Be](#) in Singapore. It is premiered on **8 July 2017** with performance dates up till 23 July. The project is created in collaboration with composer and dancers from Singapore. This intimate and immersive choreographed installation designed for pre-walking babies 0-16 months fuses dance, music and visual arts. Baby Space encourages babies to interact with the dancers and explore the installation in their own unique ways. Interlacing contemporary dance, music and visual arts within an immersive, installation based environment, BABY SPACE invites its audience to a sensorially saturated experience and proposes an exceptional encounter with art. It has been produced so far in China, Japan, Denmark, Poland and Serbia. Read more about [Dalija Acin Thelander](#)
