Conference 2019: "Beads of Our Time"

The [6th Borneo](#)

[International Beads Conference](#), entitled "Beads of Our Time", will be held at the Waterfront Hotel, Kuching, Sarawak, Malaysia, between 4 and 6 October 2019. The event serves to celebrate **the bead culture of Sarawak, part of a greater Insulindian heritage, rooted in centuries of tradition**. An ancient maritime trading network linked Borneo to the world; the beads most treasured today came from production centres on the Malay Peninsula, India, China and even further afield. In the hands of Sarawak's craftswomen and collectors, these **masterpieces of the lapidary and glass artists from many lands became intrinsically 'Borneo Beads.'**

Objectives

The objectives of the Borneo International Beads Conference 2019 include the following:

- To **facilitate creative interaction** between Sarawak's artisans/designers and their international counterparts
- To **share knowledge and expertise** with international bead scholars and researchers
- To **preserve the Sarawak bead tradition** in a commercially viable way
- To **encourage the production of top quality beads** and beadwork in Sarawak
- To **promote competent modern design** in beads and beadwork
- To **showcase the bead culture** of Sarawak to a regional/ international audience
- To **promote 'culture tourism'** in Sarawak
- To **improve the earning power of home-based cottage workers** in Sarawak

Programme

The programme involves a wide range of **local and international speakers, coming from Denmark, India, Indonesia, Lao PDR, the Philippines, and the US**, as well as **Malaysia**, including textile experts, academics, museum officers and international organisations such as UNESCO. The agenda opens on Thursday 3 October with the official launch as well as a **bazaar and hands-on workshops**, and continues until Sunday 6 October with workshops, **presentations, discussions, the bazaar and a gala dinner**. The Conference includes [over 20 workshops](#) on themes including different peoples' traditional beadwork techniques, contemporary approaches, preparing exhibitions, and more.
