## Cambodia's Sacred City"

The exhibition "[Angkor: Exploring Cambodia's Sacred](#)

[City](#)", presenting masterpieces of the [Guimet Museum of Asian Arts](#), Paris, can be visited at the [Asian Civilisations Museum, Singapore](#), between 8 April and 22 July 2018. The exhibition results from the collaboration between two ASEMUS members.

### About the exhibition

The civilisation of Angkor left an artistic legacy that lives on most spectacularly in its architecture and sculpture. A UNESCO World Heritage site, the archaeological complexes of Angkor are today acknowledged as great masterpieces. But **until the late 19th century, they were virtually unknown to the outside world**. In this exhibition, visitors will see **rare Khmer sculptures**, along with **French drawings, photographs, and memorabilia** that tell the story of the French encounter with Angkor and its sensational emergence onto the international stage.

### Additional activities

To accompany the exhibition, the Asian Civilisations Museum has scheduled an array of programmes and talks related to Angkor and contemporary Cambodian culture, including the **Angkor Encore Festival (25–27 May)** highlighting Cambodian performing arts. Likewise, the "[Exploring Angkor](#)" [symposium](#), involving several panels, talks and roundtables involving curators, archaeologists and researchers, will take place on 18-19 May. Several **curator tours and children and family workshops** are also planned.
