GALA "Art for the Earth" Green Dialogue | Bangkok

The **Green Art lab Alliance (GALA)** is a platform for the international art and sustainability movement. It currently consist of **20 key partners in Europe and 15 in Asia**, and several satellite organisations. The platform allows for networking, knowledge exchange and mutual support. GALA is organising on 15 December in Bangkok, a creative marketplace for for ideas and stories; the opportunity to share environmental concerns as well as possible solutions, tips and resources for sustainable living. The event

will follow the **roundtable** format on which delicious food will be shared, whilst trying to unravel and understand the complexities of how it came to the table; discussing topics varying from the plummeted price of rice and organic certification schemes to (food) waste and packaging. The event will consist of a programme of local and international key speakers who will share **how their creative work contributed to positive change**. Speakers will include Dr Singh Intrachooto (Scraplab), Bamboo Curtain Studio (Taipei), Yasmine Ostendorf (Green Art Lab Alliance), Ruangsak Anuwatwimon (artist), Thanan Lilaonitkul (Creative District), Madeleine Recknagel (zero-waster) and many more! Next to presentations and moderated conversations all participants will communally work on a Resource Inventory; a database in which different skills, contacts or other resources of each participant will be contributed to the movement.
