residencies conference

[Res Artis](#), worldwide network of residential arts centres, announces international conference to be held in Hungary, May 2011. Registration now open. **Horizons, opening up to different approaches in the residency field** Res Artis Regional Meeting - International Conference on Artists in Residence will be hosted by [MODEM](#) Centre for Modern and Contemporary Arts, Hungary on 23-26 May 201. This will be a chance to meet organisers of residencies both small and large, emerging and established, from Hungary and throughout the European region. With the theme of 'Horizon', conference workshops and lectures will be an opportunity to analyse the impact of residency programs for the artist, the local cultural scene, and the hosts and funders. Registration is limited to 70 participants, so register as soon as possible. **Res Artis is the worldwide network of residential arts centres, a foundation based in the Netherlands. Its members are residence centres and artist's organisations that encourage the development of contemporary art and support artists through residential artist exchange programs. With over 250 members from more than 60 countries it is the largest existing network of artist residency programs.** Res Artis provides a critical forum for residency programmes, convening international meetings and conferences where the exchange of ideas, practices and creative models test cultural assumptions and stimulate participants to open their institutions to new ways of creative interactions between the local and the global. Res Artis is promoting an understanding of the catalytic role that residential art centres play in the development of arts in all cultures and across all creative media. After focusing on regions such as Asia, Africa and America for diversification of the organisation, Res Artis has chosen to redirect the focus to Europe and especially Central and Eastern Europe. Res Artis aims to further dialogue on how to build a sustainable civil society in Europe across national borders.
