## KADK Renovation Project - Scandinavian design know- how in rural Japan

On the small island of Honjima on Japan's Inland Seto Sea, a team of young architects from Denmark and Norway are working on the **KADK Renovation Project - Reading Honjima**.

The project connecting urban Denmark and rural Japan has been active since 2017 developing as a practical study on cultural heritage and architectural transformations in the rural areas of Shiwaku Inland Sea. The **KADK** Royal Danish Academy of Fine Arts Schools of Architecture, Design and Conservation initiated the project.

The current team is on a professional residency focused on developing sustainable uses for abandoned old houses on Honjima. A new guest house is being developed which will welcome future island visitors.

Honjima is one of the islands on the autumn season programme of [Setouchi Triennale](#) and can be reached by ferry from Marugame.

The [CONNECT](#) Scandinavian furniture and design company is a partner in this project.
