Making Mobility Green! contribute to survey

On The Move is working with Julie's Bicycle

to create a Guide to the environmentally sustainable movement of performing arts and artists in Europe. Please contribute with your ideas, experiences and contacts to the online survey.

OTM works to facilitate the mobility of artists and cultural operators in a sustainable way. Therefore within our mission, we promote a concept of mobility that is respectful of social standards and environmental protection and that promotes cultural diversity and intercultural dialogue.

In today's context of excessive (ab)use of natural resources, environmental pollution and global warming, we feel obliged and motivated to think about how to promote sustainable mobility of artists. And we want to start acting on this issue.

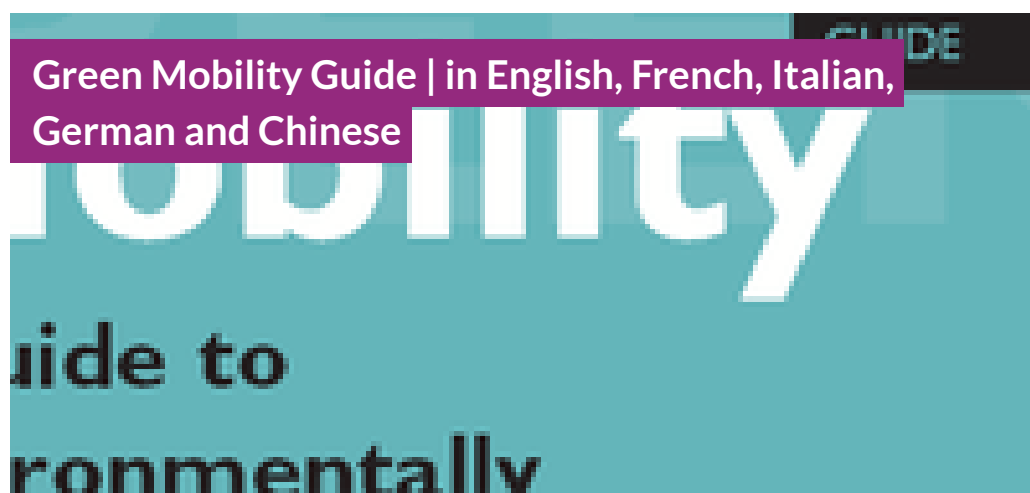

The next research dossier will be a Guide providing practical and applicable how-to's focusing on the specific role of each protagonist: artists, venues, managers, producers etc.

This upcoming Guide will also profile the current attitudes and practices of European touring companies/artists/shows and venues.

OTM invites artists and cultural operators to contribute to the survey.
