Based in Kolkata, [ThinkArts](#) collaborates with partners across India and internationally to bring a diverse programme of literary, visual art, dance, theatre and story-telling events to young audiences in several cities across India.

With the present restrictions to mobility, not only practitioners but also families and educators are exploring methods by which children can continue to be engaged with the arts, so that it contributes to their growth and well-being.

ThinkArts is organising a series of **Online Masterclasses by some of the world's leading theatre practitioners who make work for young audiences**. These artists will share their creative practice and approaches to produce art engagements for children and demonstrate simple activities, with readily available materials.
