Technarte Bilbao 2016

 **osedaxbilbao** Technarte Bilbao 2016 - 19-20 May on the theme of innovative ideas merging Art, Science and Technology. The best Art + Science + Technology projects around the world will meet in Bilbao. **Interaction Design, Human Computer Interaction, Smart Materials, Emotional Machines, Interactive Interfaces, Interactive Cinema, Digital Design or Art and Robotics** among other innovative disciplines. And a **full conference day focused in Wearable Technology Art**, talking about the present and future of Wearable Technology through Art with Behnaz Farahi, Neil Leach or Aki Inomata among other international artists and theorists. **Register now** and prepare yourself for enjoying two days full of professional networking with the best international artists and technologists working in the fusion between art, science and technology. Technarte is a Conference where international artists and technologists show the most innovative artistic disciplines that use the technology as means of creation. **This**

union between Art and Technology generates new reconnaissance fields, like Nano-art, 3D Printing, interactive installations, Art & Robotics, Bio-art, immersive 3D development, Mobile Art, smart materials and hyper-augmented reality, among others. **The main goal of Technarte is to present the technological developments which facilitate the full expression of the modern art, and to be a forum of discussion and reflection around the existent convergence between art and technology.** The cutting-edge technological innovations provide infinitive possibilities for the artist, and the technological society uses the creativity of the artists as a way of inspiration for new technological projects. *Image: Osedax, 2013.
