Matching the standards of an international film festival, the objective of MEMORY is to enable access to film heritage, as a key part of memory and source of development/enrichment : 60 films from all over the world will be projected during 10 days, with free access and a program

designed for the general public. MEMORY! is also a unique annual rendez-vous in Asia for the professionals working in film heritage with a 5-day program of conferences gathering international speakers from May 30th to June 3rd, 2015. Education Programs, in the field of Cinema, are being launched in close liaison with universities and schools.
