Belgium | FLACC residency | open call

FLACC is a workplace for visual artists in Genk, Belgium. It creates the conceptual, organizational and technical conditions for realizing unique artist projects. Open call for 3 month residencies in 2014.

Every year, FLACC selects ten artists to set up a new project. In each annual selection, FLACC aims to strike a balance between national and international artists, between beginners and artists with experience, between autonomous art and/or research projects and artists that deal in more concrete terms with the historical, geographical or social context of the workplace.

Who: visual artists in various media and disciplines

Where: FLACC, Genk in Belgium

When: Three month period or around 90 days divided over several periods between January 2014 till December 2014

Deadline: 1 September 2012

FLACC has metal and woodworking workshops, a digital studio (film and photography), and a foundry with a furnace and kilns for ceramics, bronze and glass applications, and an extensive workspace. The staff is knowledgeable about the production possibilities of nearby workplaces

and collaborates with those workplaces and with schools and companies to give the artists the best possible support and assistance. An overview of all the facilities can be found [here](#).

The call is open for all visual artists. Due to the diversity of our workshops, the application is open for projects in various media and disciplines. Projects with a notice of the specific geographical, cultural, social or historical situation of FLACC (or Genk/Belgium), challenging the notion of a 'workplace' or with the specific technical possibilities of FLACC are preferable.

The work period is three-month full time or around 90 days, divided in several smaller work periods between January 2014 and December 2014. FLACC offers an accommodation, a workplace, covered travel expenses as well as a small production budget.
