Im/Plants | open call National Sculpture Factory Ireland

Im/Plants

Im/Plants

The National Sculpture Factory (NSF) in Cork, Ireland announces its new

programme strand *Im/Plants*, open to all international artists, offering the opportunity for a new, flexible model of 3-month artist interventions at NSF.

NSF *Im/Plants* proposes a programme of seasonal *implantations* (insertions) into the National Sculpture Factory. This project is **open to Irish and international artists, curators, independent art groups, individual cultural and spatial practitioners, and collectives across all art disciplines.**

Each *implant* is of a 3-month duration and is programmed to happen seasonally. It is self-directing and self-sufficient, with an overall stipend of €3,000 and with access to the full resources and supports of the NSF, adapted to the needs of each specific applicant.

There are no prescribed outcomes, but each *implant* is expected to leave a trace, residue, or shadow, of their period of interactivity with the host organisation. Such outcomes are not restricted to the ephemeral and can be of a more permanent nature.

Applicants are invited to propose, themselves; their practice and their particular *Im/plant* proposal in whatever form they deem relevant bearing in mind the considerations above and the context being offered.

They should also nominate a preferred season in which they wish to take up their *Im/Plantation*. The three-month seasons are as follows:

- August to November 2014
- November to March 2014/15
- February to May 2015
- June to September 2015

Applicants can develop proposals for *Im/Plants* with the understanding that they need not be present, or resident in Cork for the entire 3-monthly season. **This is not a studio-based residency**, while a space in the NSF can be made available if necessary. Applicants should suggest how they

propose to proceed over the 3-month period and how this can lead to a constructive and productive engagement.

Deadline for proposals: 9 June 2014
