Korea | Geumgang Nature Art Biennale 2023–24

The 11th Geumgang Nature Art Biennale is calling for artworks from around the world on the topic of “Shelter in the Forest II”, to be displayed at the Geumgang Nature Art Centre, Korea, 26 August–15 October 2023.

The **"Shelter in the Forest" exhibition** is a project in which nature artists create shelters on the forest of Yeonmisan Mountain. The first shelter project was held in 2018 and exhibited shelter works by 25 artists/teams from 16 countries. Some works are still available through the permanent exhibition at Yeonmisan Nature Art Park.

The Korean Nature Artist's Association-YATOO, which has been pursuing the aesthetics of coexistence between nature and humans since its founding in 1981, wants to present the 2024 Geumgang Nature Art Biennale "Shelter in the Forest II" exhibition to present nature art in a broader range and **explore the relationship among "Nature-Art-Human"**.

Artists are invited to submit **model drawings for an exhibition from 26 August – 15 October 2023**. The model drawings must be a realisable proposal for the Biennale. **A number of projects will then be selected for production at the 2024 Geumgang Nature Art Biennale.**

The artists selected for the 2024 Geumgang Nature Art Biennale will receive an **artist fee of 3 million KRW and a roundtrip ticket to the Biennale, with food and accommodation covered.**
