The Summer Sessions are short-term international art and technology residencies for emerging artists and designers. A network of cultural organizations all over the world sponsors and hosts the residencies. Every summer we offer early-career artists and designers support so they can take part in production residencies abroad.

If selected, you will gain an opportunity to work in a highly productive atmosphere with support, feedback and expert supervision. Each Summer Sessions residency lasts approximately eight weeks and takes place between July and September. During this period you will develop your project from concept to presentable work, ready to show.

Artists and designers working with art and technology are eligible to apply if they (1) are under the age of 35 and/or have graduated within the past five years and (2) live in a country where there is a Summer Sessions sponsoring partner.

See website for the list of participating sponsoring partners (in many countries around the world, including Spain, Austria, Netherlands, Russian Federation, Italy, China, Korea, Croatia, Belgium)

Selected artists will receive access to the facilities of the host institution, expert support and an opportunity to present the resulting work at a public event. A budget will be provided to cover travel, accommodation, materials and a stipend.

DEADLINE FOR APPLICATIONS: 16 April 2021
