Baltic Art Center (BAC) is a **residency for contemporary art** on the island of Gotland in the Baltic Sea. They constitute an international meeting place in the Baltic Sea Region that brings together **artists and organisations regionally and internationally**. As a place for research and work for artists and other practitioners engaged within the field of art, BAC **develops, produces and presents artistic projects** together with partners who share their engagement in today's society.

BAC is a flexible organisation that follows the artistic process and that adjusts its modus operandi to suit specific productions. By bringing together different methods, artistic practices and knowledge, BAC contributes to the vitality of the art scene and highlights Gotland as an arena for contemporary art.
