## Czech Film Commission/ Česká filmová komise

The **Czech Film Commission** was established in 2004 to support audiovisual production in the Czech Republic and promote the country to international filmmakers as one of the world's top destinations for international film productions. The commission is a department of the Czech Film Fund and a member of the European Film Commissions Network (EUFCN) and the Association of Film Commissioners International (AFCI).

The Commission provides consultation, guidance and contacts to incoming filmmakers and is the most comprehensive resource for information about filmmaking locally, from legal requirements and permits, to talent and tips on where to throw a wrap party. They link international filmmakers to the local audiovisual infrastructure and to local authorities. The communication goes two ways. We also listen to the developing needs of film industry professionals and communicate them to the municipal and state institutions, to ensure that the Czech Republic remains a competitive partner on a global level.
