The Hungarian Multicultural Center (HMC) is a 501(c)(3) educational non-profit corporation, founded in 1990. HMC's mission to bridge cultural, geographic, and linguistic divides by bringing people together through the arts in order to foster a greater understanding of world cultures.

The HMC's cultural programs are **film screening, concerts, workshops, seminars, exhibitions, videofestivals and artists residencies.**

The **INTERNATIONAL ARTIST-In-RESIDENCY PROGRAMME** was founded in 1995. HMC offers a unique opportunity for artists chosen from around the world. **Residencies and exhibitions** are yet another way to bring the contemporary art and artists featured in the series directly to local communities and audiences. Providing an opportunity to interact with new work and new ideas, residencies can initiate important conversations and create forums for further public dialogue.

Facilitating connections between artists and different communities can deepen the conversations started in the broadcast series. Involving the artists directly in outreach is an important aspect of the HMC series.
