Associations and Institutions

The International Federation of Library Associations and Institutions (IFLA) is the leading international body representing the interests of library and information services and their users. It is the global voice of the library and information profession. IFLA was registered in the Netherlands in 1971. The Royal Library, the national library of the Netherlands, in The Hague, provides the facilities for the headquarters.

IFLA is an independent, international, non-governmental, not-for-profit organisation. Our aims are to:

- Promote high standards of provision and delivery of library and information services
- Encourage widespread understanding of the value of good library & information services
- Represent the interests of our members throughout the world.

More then 3,000 delegates meet at their annual **conference** to exchange experience, debate professional issues, see the latest products of the information industry, conduct the business of IFLA and experience something of the culture of the host country. A range of professional **meetings, seminars and workshops** are held around the world by professional groups and Core Activities.
