M3 – Resources for Culture

M3 - Resources for Culture is a Bucharest-based NGO set up in 2012 with the aim of providing a platform for meetings and debates, as well as expertise for the professionals in the field of culture. Our organisation aims to explore, support and help develop the cultural sector through specialised studies and interdisciplinary projects and by creating concrete favourable contexts where artists, cultural operators, researchers and authorities can meet and communicate. We believe in the important role of arts and culture in the development of each individual and of society as a whole and we advocate for professional cultural management and a democratic process of substantiating cultural policies and good governance at national level.

Selection of projects and activities 2012-2016: advocacy for independent culture and good governance (2012-2013), analysis and facilitation of governance of built cultural heritage in rural areas (2013), elaboration (together with A.T.U.) of the long-term cultural strategy of the city of Timisoara (2014), development of a Romanian knowledge-based network of cultural operators and schools/teachers interested to develop arts in education activities (2013-onwards)
