The Museo Pambata is a children's interactive museum, the first of its kind in the Philippines. Museo Pambata is a children's discovery museum with various programmes in support of children's rights and a broad range of creative and educational services for children and adults involved in children's welfare.

It is an alternative to the formal classroom environment, where learning resembles a one-way street – the teacher imparts knowledge and the students absorb it. In Museo Pambata, children can use all their senses and learn various concepts at their own pace. It excites the minds of the young, inspires them to learn more, and most importantly revitalises what child learning should be – fun. Its vision is to be a children's discovery museum and resource center promoting Filipino culture, children's advocacies and creative educational programmes with linkages to global communities
