N22

N22 is an artist-run art hub, gallery and community in Bangkok. Based in an abandoned warehouse complex in central Bangkok, turned into a burgeoning independent art hub and is today home to many local young and established artists, gallerists and creative entrepreneurs. The establishment of N22 in 2016 provoked some sort of instant cultural regeneration within the local art community, with several art initiatives joining forces to occupy and share this building complex with the purpose of fostering collaboration and creating synergies between different generations of artists and creative practitioners in Thailand. Housing over half a dozen art spaces, galleries and studios, N22 was initially founded by renowned Thai artist Rirkrit Tirvanija to cultivate young contemporary artists, by increasing visibility and creating opportunities for them. N22, as a hub, offers several types of spaces from commercial to more experimental spaces. Since its foundation, several artist-led platforms have relocated into N22, creating a vibrant art community.
