Associations

The Network of European Museum Organisations (NEMO) was founded in 1992 as an independent network of national museum organisations representing the museum community of the member states of the Council of Europe. Together, NEMO's members speak for over 30,000 museums across Europe.

NEMO **connects** European museums and their organisations to help to ensure their place in the cultural development of Europe. NEMO fosters European **policies** that help museums in fulfilling their role as keepers of cultural heritage by promoting their importance to European policy makers. NEMO **supports** European museums in their aim to learn from each other by networking and co-operation and shows them ways to participate in the existing European cultural policies in its function as an information channel between European institutions and museums.
