Paris Cinéma

The ambition of Paris Project is to bring together International professionals aside key players in the French film industry, around a few international production projects in development and films in post-production.

What makes Paris Project so special is that it aims at encouraging professionals to get involved in foreign films in development in order to promote financial arrangements, co-productions and networking with potential French and International partners.

Paris Project Meetings

Paris Project invites the foreign filmmakers and producers of twelve selected projects to spend 3 days in Paris where personalised meetings are organised with French and European professionals who are likely to be interested in those selected projects and to bring them financial support through co-production or presales.

Moreover, personalised information to the representatives of the projects and the professionals attending Paris Projects is provided through the intervention of matchmakers and experts in different fields (marketing, financing, legal matters, TV...) and representatives of French and European institutions.
