Pro Progressione is a Budapest-based artistic hub that connects people, professions and ambitions by designing international collaborations in the field of culture. From this combination, creative ideas emerge – artists, cultural activists, scientists and experts of various fields meet and give cutting-edge answers for the questions of our age.

Pro Progressione focuses their capacities on the fields where they aim to have a positive long-term impact, thus Pro Progressione is built up on four main pillars, **PP Social, PP Cult, PP Arts and PP Sound**. They are active in the field of **socially engaged arts, cultural and natural heritage interpretation, music as tradition and the productions of unique performances**. Their innovative team disposes of a large scale of professional competences and creativity, each of their members are personally engaged with arts and culture.

Pro Progressione has been **implementing numerous international projects supported by the European Commission**. They believe in interdisciplinary creation, in a mutual exchange between disciplines, art forms and actors of social and artistic fields. Their overall objective is to create an **international network of artists, institutions and audiences** by helping the

communities to find their path towards arts.
