# Singapore International Foundation

for a better world

The Singapore International Foundation (SIF) makes friends for a better world. Their programmes **bring people together to share ideas, skills and experiences** in areas such as **healthcare, education, the environment, arts and culture**, as well as livelihood and business. Through their **cultural exchange programmes**, they harness the power of **arts and culture to promote understanding for an inclusive world and deliver on social impact**.

Their **arts and culture grants** support projects that will **bridge Singapore and world communities**. Projects should promote awareness of Singapore's culture, as well as share best practices and enable actions for positive change through arts and culture.
