Singapore International Foundation

The Singapore International Foundation (SIF) makes friends for a better world. Our programmes bring people together to share ideas, skills and experiences in areas such as healthcare, education, the environment, arts and culture, as well as livelihood and business. Through our suite of cultural exchange programmes, we harness the power of arts and culture to promote understanding for an inclusive world and deliver on social impact.

The Singapore Internationale (SI) is an arts and culture grant that supports the presentation of Singapore's creative works overseas and Arts for Good projects that will bridge Singapore and world communities. Projects should promote awareness of Singapore's culture, as well as share best practices and enable actions for positive change through arts and culture.
