The Transilvania Trust Foundation was founded in 1996 in Cluj by a group of specialists with many years of activity in the field, and aims to protect the built heritage of Transylvania, organise protection activities and develop an integrated protection strategy.

The foundation is active in **all areas of heritage protection**: data collection and inventory, documentation, conservation, restoration, rehabilitation and maintenance, as well as in the field of scientific research. Through professional **training programmes** it contributes to reducing the lack of specialists, and through publications and symposia it forms the perception and mentality of society in favor of the protection of the built heritage.
