VERBIER ART SUMMIT

The Verbier Art Summit is an international platform for discourse based in Switzerland, aiming to **empower the art ecosystem to be a positive social change facilitator**. The Summit connects thought leaders to key figures in the art world to **generate innovative ideas and drive social change**.

Over the past century, science, politics and business have shaped our world. In our current global society, it is time for art and culture to play a dominant role. At the start of each year, the non-profit Verbier Art Summit **brings together innovative thinkers with influential artists to kick-off debates on important social issues.** The international platform's sole aim is to **generate new ideas and drive social change through art.**

Through a series of **talks and debates** with an invited group of leading art world stakeholders, new visions and initiatives are born that will make a positive change and build global solidarity. The talks provide a unique chance to be inspired by international leading art world figures on topical issues. This way, Verbier Art Summit educates, provokes and inspires its Members and the wider community.
