Technarte Bilbao 2016 - 19-20 May on the theme of innovative ideas merging Art, Science and Technology. Science + Technology projects around the world will meet in Bilbao. Interaction Design, Human Computer Interaction, Smart Emotional Machines, Interactive Interfaces, Interactive Cinema, Digital Design or Art and Robotics among other innovative disciplines that use the technology as means of creation. And a full conference day focused on Wearable Technology and Art, talking about the present and future of Wearable Technology with Behnaz Farahi, Neil Leach or Aki Inomata among other international artists and theorists. Register now and prepare yourself enjoying two days full of professional networking with the best international artists and technologists working in the fusion between art, science and technology. Technarte is a Conference where international artists and technologists show the most innovative projects around the world. The cutting-edge technological innovations provide infinite possibilities for the artist, and the technological sophistication of the artists as a way of inspiration for new technological projects.
