KOI is a public organisation (“Kultūrinės ir organizacinės idėjos” - Cultural and Organizational Ideas, KOI in short), established in 2008 to start spreading Asian culture in Lithuania and to serve as an international platform for cultural collaborations between Baltic States and Asia.

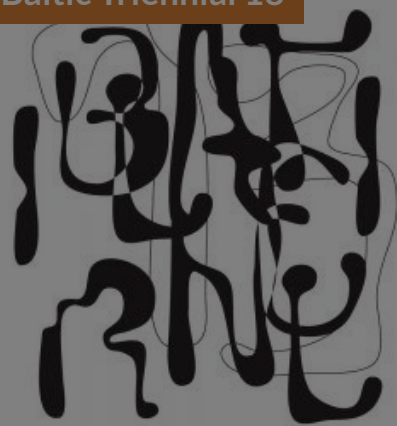

Now they are a leading cultural organisation in Lithuania that **builds cultural bridges between East Asian countries and Baltic States**. Implementing creative projects at both local and an international scale, they are driven by quality, innovation and creativity.

While aiming to enrich the outlook of society with qualitative content and encouraging taking a step towards the joy of discovery of the world of culture, at the same time KOI enables artists and creative professionals worldwide to meet up at a one place for unique collaborations, valuable knowledge and contact exchange, to generate groundbreaking ideas for the present and for the future.
